Content

- Important milestones
- Role of mobility
- Achievements
- Recommendations

Important milestones

patience

support

freedom

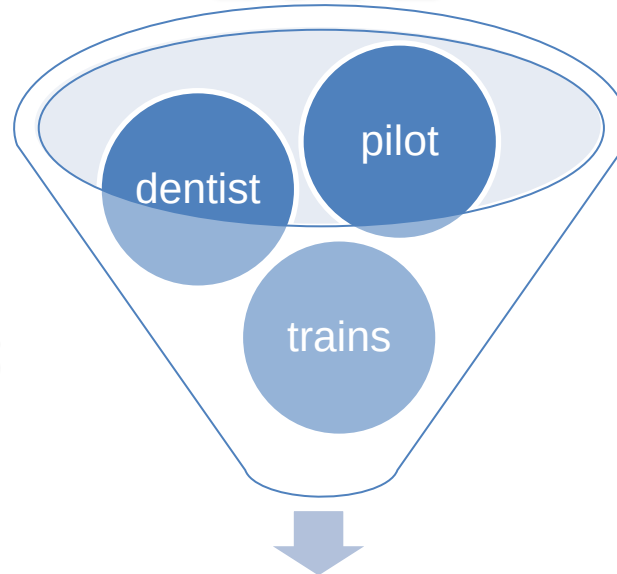

tolerance

LOVE

Good at:

- mathematics;
- physics;
-;

Not good at:

- languages;
- history;
-;

train driver

Important milestones

1992

electric traction

1997

Ing.

electric machines

2002

PhD.

non-destructive
evaluation

2007

doc.

theory of electrical
engineering

2015

prof.

My important mobility:

- 1995 - Laboratory of Electromechanics (prof. Tapani Jokinen), Helsinki University, Helsinki, Finland;
- 2002-2005 – International Institute of Universality, Tokyo, Japan

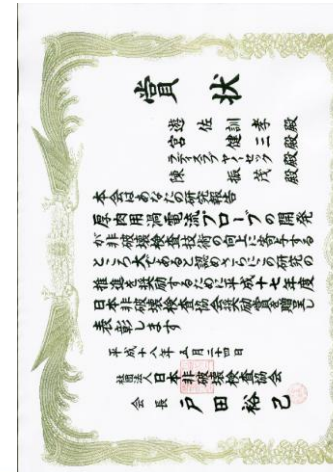

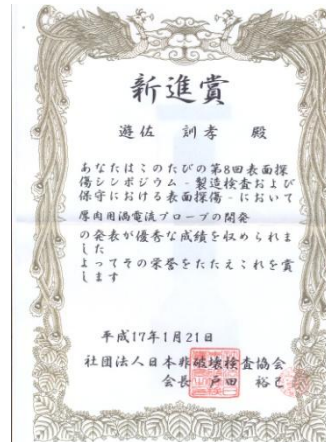

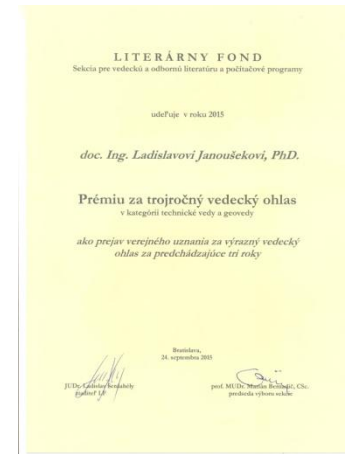

Why:

- language skills;
- multicultural environment;
- soft-skills;
- new way of thinking;
- different perspectives;
- diversity;
- new friendships and much more ...

- 1 daughter 😊;
- 3 patents;
- 7 prestigious awards;
- > 170 scientific publications;
- leader of 7 research projects;
- vice-leader of 1 EDA project;
- vice-coordinator of ERAdiate.

Keep being child

- discover the world with **passion**
- keep asking **why**
- abandon to **discovery**

Keep educating yourself

- expand your **perspectives**
- knowledge is a **weapon**
- take **opportunity to study/work abroad**

Keep going beyond borders

- take **knowledge as guide not limit**
- go across **geographical borders**
